

Culture, Community, Craft

The 2015 Intel Agile and Lean Development Conference

is five days of sessions and events designed to improve your success building new products and services. Discover and explore the latest in agile thinking and leadership advancements from thought leaders, change agents and practitioners who deliver inspiring keynotes, in-depth tutorials, and a wide range of conference classes. Whether you work in a small company or a large enterprise, we're structuring the conference to address your most important challenges and connect you with industry experts and peers.

Monday: Create the Foundation

The first day of the conference includes interactive workshops such as ScrumMaster Foundations, Product Owner Fundamentals, Introduction to Lean and Developing Coaches.

Tuesday: Support a Growth Mindset

Tuesday is dedicated to digging a bit deeper and features sessions such as Applied Complexity, Story Mapping and Refactoring.

Wednesday: Acquire the Fire

Get inspired to create meaningful change with compelling talks from industry thought leaders such as Bjarte Bogsnes, Jurgen Appelo, Scott Hanselman and Noopur Davis.

Thursday: Build the Future

Unlocking organizational agility requires re-examining current thought models and building new ones. Thursday includes workshops on topics such as Culture Hacking, Management 3.0, Strategic Leadership and Collaborative Workspaces.

Friday: Reflect and Review

The last day of the conference is an opportunity to reflect on the week through participant-selected "Encore" sessions in case you missed a session from earlier in the week. We'll also hold a number of interactive technical sessions, including Mob Programming and Code Retreat.

Dates:

April 13–17, 2015
